Hook:

'Cause we can be kings and queens
And highs, and lows,
and wires and vogues,
and anything that hoes

And together we are closest
And it could be the chosen,
the best I know, I know
'Cause we go good 2getha, baby
'Cause we go good 2getha, baby
'Cause we go good 2getha, baby
'Cause we go good 2getha, baby
'Cause we go good 2getha.

I took it early morning fresh
Get up, get out and get gone
Thank god for the sun and the chrome
That I pushed when we rolled in the.. 'Lac De Ville
Good..trunk, yeah it gave ya chills
Popped up twice just to show your grill
Left the comfort of her home to roll with me
'Cause she was searching for something real
I be that nigga, be that fresh, be that lane
be with a winner, relieve that stress
Jump online, I free your mind
We don't need no dime, at least not mine, spend this
check
Buy that benz, or ride that Lex, and drape our necks
Like Kings and Queens
As I'll be dying to shine, I'll make love to your fertile
mind
'Till you can see my dreams

[Hook:]

Let me be your one stop shot
Pick you up and you won't be
Pick you up when you won't feet
Be your guy, I'll be your eyes when you can't see
I'll be your L when you can't breathe

.. you game, but it ain't free
You gotta be down for the play
When we up we can shine, but prepare for the grind
'cause they could break down in the day,
What you do when the.. leaks,
I ain't the type of both that..deep
But it takes some hard work to get rich,
And it's a small risk that rock the red bottles and
..friends
But it won't, get your knee, gotta have
when we shot, gotta grab, put em back the fact
To be careful how you spend your cash

[Hook:]

Just like highs and lows
Drove a fuzz and goes,
We go good 2getha baby
We go good 2getha baby.
Just like high and lows
We are trucks it glows,
We go good 2getha baby
We go good 2getha baby.
