

Big K.R.I.T. "King Without A Crown"

Visit "[King Without A Crown](#)" on MotoLyrics.com

Hook:

Forever is a mighty long time
I do it for the sign ..
Forever in the game, forever more time
Forever getting mine, forever under grind

Was a king without a crown
Was a..from side hoe,
Was a king without a crown

...and a little little gonna ease my mind a bit
Plus even when you polish now 'cause won't let you
shine for shit,
That pot to busy and tone, into a high so hill
I'm talking too .. there's no fabrication
There's a true story for wheel,
And ain't nothing goes right of my..tighter than was
real of this
Keep the poppin' like hit grease,
Ride up of your cavage
Girls go with the buckets seas,
Buckets keys I split the peach
Young crizzle, brook..tiger, hit brick
Home was till I got more to take it,
Drams achieved I got more to say,
Crush leanin', grant grippin', don't get my butt,
I hate it when the bitch get over ceiling,
so chill your hoe, I got a point ..
There's a reason I rhyme for
Go goes I better dime for. .

Hook:

What's a king without a crown?
Forever is a mighty long time
I do it for the sign..
Forever in the game, forever more time
Forever getting mine, forever under grind
What's a king without a crown?
What's a king without a crown?
What's a king without a crown?
Was a..without from sign hoe

Was a..without from sign
What's a king without a crown?

K R I T, one more time for the folk tat didn't know
Two more time for the folk that didn't listen
Three more time for the focus ..impossible
for a country boy, like they can spit, like they can flow,
shout to everybody wanna be a a rabel
but everybody I can't do it to show
SO I'm slam the doughs, and work the wheels on
Put my benz and pop my bill on em,
Shit change, set crible sit,
I wear my glance and crack the seal on em,
'Cause I deserved it, got my own school,
Then I swerve it in my own lane,
I'm in my own beats I rap my own rap
I grip my own grind, and that's royalty
Hell from stove the lead
I may do what God gave
I do exactly what I feel,,
yeah I play my part and I gave my heart
and I grip the zip for my crib,
She'll light the candle that came before me
I'ma keep it real.
