(Sample from 8Ball & MJG's "On Top Of The World")
Made a lot of cheese(cheese), people say I changed
Made a (made a) lot of cheese(cheese), people say I
changed
Made a (made a) lot of cheese, people(people) say I
changed
But if you thinking that you never knew me from the
gate
Made a (made a) lot of cheese(cheese), people say I
changed
Made a (made a) lot of cheese(cheese), people say I
changed
Made a (made a) lot of cheese, people(people) say I
changed
But if you thinking that you never knew me from the
gate man
Ay but fuck it then,
cause I rather ride Bubble Benz and push a bucket
break, scrubbing paint,
Bubbling up again, on my hood
Gotta get it while the gettin good,
A chemist with the pimpin mix the leather with the
cherry wood,
If you could you should,
Slam doors on hoes,
I 5th wheel my trunk while white-wallin my vogues,
I tight walk on these foes just to flex,
Ain't no sense in stepping out if I can't never look my
best,
Damn, don't stress my bankroll,
Just know I keep my bank swoll,
Ain't no place I can't go, never trick on no stank
hoe,
It was like that back when I was in my mama's
stomach
A player slid up out the womb and hit the ground
running,
Never stumbling always gunning like a popped glock,
Keep a hater boxed out,
So I could rebound and ball for the top spot,
All the same I'm a staple in the game,
Ain't never been no lame,

That's why I find it strange when I.
Made a lot of cheese(cheese), people say I changed
Made a (made a) lot of cheese(cheese), people say I
changed
Made a (made a) lot of cheese, people(people) say I
changed
But if you thinking that you never knew me from the
gate
Made a (made a) lot of cheese(cheese), people say I
changed
Made a (made a) lot of cheese(cheese), people say I
changed
Made a (made a) lot of cheese, people(people) say I
changed
But if you thinking that you never knew me from the
gate man
Who the fuck are you,
Texting me at 1: 46 in the evening,
Meant the morning,
After midnight,
While I'm yawning,
You were sleeping
4 door Chevy roll I'm out'chea creeping,
Slamming doors in,
Heavy things but I want some more,
With playa pose, Roll up on hoes,
They say they knew me from high-school,
Maybe community college, claim you wanna do some
thangs
But I can do without it,
My mama name "Such and such" and we gonna be like
baby powder,
Baby I doubt it,
It it's hard to swallow,
You wanna lay up, I want a dollar,
For the machine, I'm kinda thirsty,
A little parched, she wanna ride, no you cannot,
She say I'm mean I say just a hoes,
And dumb niggas, kinda like you,
Them Bs and doe's,
Reject request on Facebook,
Daily duckin lames,
All you know is my patna & 'em then my name,
Plus you heard that I.
Made a lot of cheese(cheese), people say I changed
Made a (made a) lot of cheese(cheese), people say I
changed
Made a (made a) lot of cheese, people(people) say I
changed
But if you thinking that you never knew me from the
gate

Made a (made a) lot of cheese(cheese), people say I
changed
Made a (made a) lot of cheese(cheese), people say I
changed
Made a (made a) lot of cheese, people(people) say I
changed
But if you thinking that you never knew me from the
gate man
(Big Sant)
You probably see me in the street but nigga you dont
know me,
Big *sut* bitch motherfucking OG,
From the Sip get a grip, wanna visit take a trip,
Ainâ€™t a nigga dead or alive that can say that I done
flipped,
Im from the land of the cheese, home of the slave,
Donâ€™t confuse me with no lame,
Cause thatâ€™s what just I ainâ€™t,
Alumni forever put that on the nigga next to me,
Started out writing rhymes ended up writing a legacy
(Big K.R.I.T.)
They hollerin there he go again,
What's his name, where his folk?
Call him Kurt, call him KRIT?,
Fuck that nigga I ainâ€™t sure,
He got beats, heard him flow,
Like a couple years ago,
He alright, kinda tight,
Shawty like him on the low,
There he go, too much soul,
I wouldnâ€™t buy it out the store,
Plus I saw him in the club,
One who hollered at my hoe,
Just because he got some dough,
From a deal he think he ill,
I bet thats how that motherfucka feel,
And on the real I think he changed.
