chorus

do you want to go

where you never been before

come on baby

hear them players play .

and all that you want

in star

if I had to chose

I chose you

If I had to chose

I chose you

Play a play for your heart

Fresh women I'd label it

Don't know how I see it on my close it with a
!

They can barely making it taking trips around the world

Just to find my beauty blind and over shining diamond

In and out of space

Seen a lot of faces but

. see the queen of all the land is you

But once the solo mission I plan for 2

. play on exotic beaches.

Barely sleeping taking my one and only

My body is breathing

. cause usually . but you can ride

If you know how to stay in

Chorus

Now don't go listen to the non believers and their
tales

I . the thing you get the ring cause . player

! like a model . at the bottom . another level

. wanna beat it cause I am, when our body . so spiritual

.cause usually it's playing on you can fly

If you know how to hang on

Chorus
