(Wake up, wake up  
Wake up, wake up)

[Verse 1]

Thank God for the day, thank God for the morning  
Won't take this here for granted no good Lord I gots to  
get on it  
With every breath I take, or move I make, I gots to keep  
wanting  
A better life for me, and all of mine, no time for that  
yawning  
In the bed waiting, procrastinating, I gots to be hungry  
Too old for games that don't mean a thing, can't play  
with my homies  
Just know I'm paying dues if I don't pick up for ya,  
whenever you phone me  
Cuz being broke ain't fun and that pity party I threw  
is starting to get boring  
Good morning

[Hook]

I know today gonna be the best day of my life, my life  
(Wake up, wake up)  
I know today gonna be the best day of my life  
(Wake up, wake up)  
Gotta keep my head out the clouds and my feet on the  
ground

[Verse 2]

Gotta be realistic, stop talking and listen  
Cuz at the blink of an eye your life'll pass you by,  
good Lord you missed it now  
You're wishing that you went slow, took advantage of  
that 2-4  
Yeah you gave your all to get your back from off the  
wall but you can give more  
Stand tall against the grain, be yourself don't do the  
same  
As the next man cuz all paths are different, so don't  
jump the train  
Hell, we can't complain, for this borrowed time  
So don't misuse yours, cuz you can't borrow mine

Good morning

[Hook]

I know today gonna be the best day of my life, my life

(Wake up, wake up)

I know today gonna be the best day of my life

(Wake up, wake up)

Gotta keep my head out the clouds and my feet on the  
ground
