"What You Know About It"

Visit "[What You Know About It](#)" on MotoLyrics.com

(Bridge)

Rolling one time, king with the wine
Pullin pullin more, shouldn't shouldn't dodge
Seat back reclined, alpine surround
Choppers on Pirellis, pull pop and climb

(Hook)

Digit in my dash, what you know about it?
TV's in the glass, what you know about it?
Raw steel bopping, what you know about it?
Torn pop lock and what you know about it?
You ride clean, 4 or 5 screens
Grill steel mean, all the side on lean
Domes on slay, I'm why the bass going HAM
Smoke look like man, got the haters like damn

(Verse)

Play a shot Shawty, make a game on it
9 piece, down to put my name on it
Screens in my city, let em hang on em
These 15's I let em bang on
Suicide doors, cold rain on em
Ridin real slow, switchin lanes on em
Guillotine whip, I let the swing on er
Uh, gorilla in my trunk, I need a chain on it
Shots stayin on it, candy paint to paint the flame on it
Fresh and clean, they tryna sniff it like it's caine on it
I got the pinky ring, I cook the grain on it
4-50 corner, been in, I could pull a train on it

(Hook)

Digit in my dash, what you know about it?
TV's in the glass, what you know about it?
Raw steel bopping, what you know about it?
Torn pop lock and what you know about it?
You ride clean, 4 or 5 screens
Grill steel mean, all the side on lean
Domes on slay, I'm why the bass going HAM
Smoke look like man, got the haters like damn

(Verse)

Pass by yo crib and knock yo shutters down
Forget what you heard, Iâ€™m still on the grind
Creepin like a lizard on the scene
I donâ€™t save em, I got gators
Talkin flavors, I got green
Drinkin ainâ€™t for me, it ainâ€™t my DNA
Iâ€™m prowling kinda free, she pay me anyway
Shit join cool I pop the next seat
My Chevy hopscotch and if you ask me
Lastly ballin on them lames on the city light
King Tut, gold Olympic winnin, arenâ€™t you livin life?
Cold as ice, burn leave me alone and if you old enough
32 degrees where I speed like Iâ€™m on the snow

(Hook)

Digit in my dash, what you know about it?
TVâ€™s in the glass, what you know about it?
Raw steel bopping, what you know about it?
Torn pop lock and what you know about it?
You ride clean, 4 or 5 screens
Grill steel mean, all the side on lean
Domes on slay, Iâ€™m why the bass going HAM
Smoke look like man, got the haters like damn

(Bridge x2)

Rolling one time, king with the wine
Pullin pullin more, shouldnâ€™t shouldnâ€™t dodge
Seat back reclined, alpine surround
Choppers on Pirellis, pull pop and climb
