In control and why exist for this gut reaction? -
unattraction...My post-primordial complex at 823x it's
original dosage. Initials carved in my anxious palm, I
fuck my
way through Odysseus Psalm! Defiled in holy
chambers...Horoscope hallucinogen. I would say "yes"
to see
profit from heaven run dry.
How can you keep from he who fingers the ultimate?
Wait 'til
you see!...Kicking heels while heaven runs dry!
Kolobok!...

I would say "yes" to see profit from streaming flaw. Just
relax and take a deep breath. The conference begins...
A conference meaning a mutual bond between the
selves - A
master by theirs and his own advised hell.
Gut reaction - Unattraction! The problem is I grossly
admire
an interest inhuman...You see, horrible habits die hard,
and
I'm starting to feel like me again.
