Phenomenon O.C.

Big L, one-three-nine, baby

Diggin' In The Crates

Yeah yeah, this is Joe the God, Terror Squad reppin

Yo, yo, yo

I'm from a place where them niggaz don't, talk no shit  
Where them wigs get split, where the guns forever click  
Where the track stars come to warm up for a race  
Blue and whites ride by and niggaz yell, "Fuck them  
Jakes"

So much respect, I can lay dough on the floor  
Walk away and come back without cats runnin' off  
I'm a model hoe's wet dream, in her sleep  
Performin' X-rated fuck scenes, me goin' deep  
O.C. the Starchild, let your cameras record

I'm like a man bein' honored at the Grammy awards  
I pitch lines like fastballs  
Mush-out, rap my ass off  
Knuckle gaze crumblin' your glass jaw  
Supreme figure, drink liquor, what team thicker?  
"The Big Picture" be the motherfuckin' theme nigga  
Flamboyant forever, this is how it goes  
Pray we don't clap your way when the gats explode

Where Brooklyn at?

Yo, B-K don't play

Harlem World

Where niggaz get the money all day

Boogie down Bronx, specialize in gunplay

Triboro, so thorough, always

Where Brooklyn at?

Yo, B-K don't play

Harlem World

Where niggaz get the money all day

Boogie down Bronx, specialize in gunplay

Triboro, so thorough, always

Where I'm from, dudes get sliced, 'cuz crews is trife  
And you might lose your life for your jewels and ice

I'ma slide to the telly and abuse your wife  
If I got one rubber, I'ma use it twice  
I give young fools advice about the rules of heist  
When I rock 'gators, hoes be like, "Them shoes is nice"  
Dimes I'm willin' to hit, I stay drillin' a chick  
They all know I ain't shit, but they still on my dick

And I never walk the streets without the vest and the  
chrome  
'Cuz all my jewels be Rocky like Sylvester Stallone  
I blast the tech at your dome to leave you restin' alone  
Go home and puff a fat bag of sess 'til I'm gone  
You got this nigga frontin' like he the main event  
When his album ain't even last long, it came and went  
I'm like Gotti to him, I throw the shotty to him  
Niggaz don't want it with L, they like, "Anybody but  
him"

Hoodied down with the mac, Boogie down where it's at  
Fuck around, hear the sound of the gats  
Wanna clown we react, fuck that  
Do you know what you do when you fool with Joey  
Crack?  
I'm coke on the streets, I'm open for beef  
I'm hopin' you reach so we can go with the heat  
I'm like a nigga that you just can't kill  
Niggaz spittin' that hot shit, but just ain't real  
It's like you muh'fuckers frontin' for me

Nuttin' to see, when I'm the one you wantin' to be  
Lovin' the stee', come through plush in the V  
Got niggaz mad 'cuz they pain while we fuckin' for free  
Make Trizz a household, live what I told  
I only speak that true shit that I know  
Besides y'all don't want it with us  
A hundred or plus, killers that be livin' to bust  
What the fuck?

Yo, Remi so crazy, rhymes be blazin'  
Styles just switch like hips on gay men  
Trips to the Cayman, rich and famous  
Rhymes so hot my spit be flamin'  
Benz be rimmed up, doo be pinned up  
Bitch talk slick whole crew get hemmed up  
My shit drastic, all type of tactics  
Rip shit flip shit spit shit backwards

Screw you, don't let the pretty face fool you  
I kick shit like kung-fu and I, jam like guns do  
You got one, I want two like water, I run through  
Pyscho, make you wanna change your whole mic flow  
Floss it, givin' bitches lyrical abortions  
Stay cautioned, my first shit was just a lil' portion  
I come back with more shit, playback some raw shit  
You can't rock, so I'ma take your spot make you forfeit
