I wonder were you are
Near or far away
I wanna be with you
Every night and day

I'm lookin for an answer in your eyes
I'm searchin for your love
deep inside

Your love is everything I live for
Your voice is what I hear
Your touch is everything I dream of
Â'Cause you are the one I need, the one I need

I wonder how you feel
My love for you is true
I'd walk a thousand miles
Just to be with you

I'm lookin for an answer in your eyes
I'm searchin for your love
deep inside

Your love is everything I live for
Your voice is what I hear
Your touch is everything I dream of
Â'Cause you are the one I need, the one I need

Your love is everything I live for
Your voice is what I hear
Your touch is everything I dream of
Â'Cause you are the one I need, the one I need
