yeahh yeahhh x3

Nothing's the same (nothing's the same)
so young & naive
we thought that love would last forever (forever)
you can always count on change
but we're growing further apart
the longer we stay together
it's hard for me

cuz baby i know
that it's over
know that we finished
we couldnt get it
our hearts wasn't in it (?)
but just for the night can we pretend it's like the first
time
baby cuz i've been ___ working
both of us hurting, let's end it right now
closing the curtain but just for the night
can we pretend it's like the first time (yeah)

what do i say to get you to understand
& what i'm tryna say is we'll just end up here again
& i'd rather let you go today, before you hate me later
(oh baby)
i know its hard to make believe
that we never said that we can't be
can we make it alright, just for one night
can we put all that aside?

baby i know that it's over
know that we finished
we couldnt get it
our hearts wasn't in it (?)
but just for the night can we pretend it's like the first
time
baby cuz i've been ___ working
both of us hurting, let's end it right now
closing the curtain but just for the night
can we pretend it's like the first time (that it's like the

first time yeah)

baby i know that we can't make it work
i guess i'mma have to let it burn
but about that now i'm not concerned (?)
just for one night (x2)

baby i know that it's over
know that we finished
we couldnt get it
our hearts wasn't in it (?)
but just for the night can we pretend it's like the first
time
baby cuz i've been ___ working
both of us hurting, let's end it right now
closing the curtain but just for the night
can we pretend it's like the first time (x2)
