So many signs, so many ways
It's a living thing no need to rush
The buzz will last for days
When you discover, I'm just a man
Take it girl or leave it
Don't be reading out the label on the can

I got your number
I got your number
I got your number

I'll be your lover, I'll be your friend
I'll be your friend and your brother in love
But that's where the story ends
If you say jump, I'll do it with affection
But don't get pissed if I don't move
Too fast in your direction

I got your number
I got your number
I got your number

It's that same old nonsense that same old look
But now I'm turning back
And I can read you like a book
It all means nothing, nothing at all
It's the same old business
Man it drives me up the wall

You made the potion too strong
I feel I'm going soft
I've been that way far too long
You see, now it's wearing off

So many times, so many days
It's a spiritual thing that loving touch
I thought you'd be amazed
I like the distance, I like the space
The money's good, the rent is cheap
And I can read suspicion on your face

I got your number

I got your number
I got your number
