You can walk through fire
Make the north wind blow
Squeeze 'n' tease me, honey
When you shake your body

You move my soul, my, yeah

Let me be your lover
Won't you let me be your child?
Take me through your universe
You know that when you smile

You drive me wild, oh, my baby

Love child
Driving me wild
Love child
Always teasin' me

You can ride your pony
Daydream in fairy tales
All I know is I need more
When I see you dance the seven veils

Oh, baby, let me shake it
You got me shakin', babe
You got me shakin', baby

You can walk through fire
Make the north wind blow
Squeeze 'n' tease me, honey
When you shake your body

You move my soul, oh, yeah
