I told you once about a place that I had accidentally
stumbled upon
Can you imagine how it feels to find somewhere that
you can do no wrong
But it's alright you're safe in my hands

I'll meet you in the sky tonight and we will trace some
undiscovered stars
We'll go beyond the universe beyond all
understanding, hey, it's not that far
But it's alright I feel safe in your hands

I can't stand living this way
Getting by from day to day
I'm drinking from your loving cup
I told you things were looking cup
Oh oh oh so good
Oh it feels so good

We're all the same but then again we're all quite
different in our own peculiar ways
We've come so far and now we're going through
another phase

But it's alright
We made it so far

I can't stand living this way
Getting by from day to day
I'm drinking from your loving cup
Told you things were looking cup

As we all know it's hard to breathe when something
spiritual has taken place
We don't know why we don't know how we've been
transformed into a state of grace
But it's alright
We walk in our sleep
Yes it's alright
This is rapture of the deep
