It seems to be our last day,
The last day of our life
We're still searching for our own way
It's too late for us to hide, cause if we

Hide there'll be no changes
There'll be no changes in our world
In this world don't you feel like a stranger
Can't you see the everlasting anger in this world

Refrain:
Can't you don't you see it could be so beautiful
It could be so beautiful
Can't you won't you feel it could be so beautiful
It is still beautiful

I can see so many angels
I see them falling from the sky
They were so young they had no chance
They had no chance to fly

Can't you don't you see it could be so beautiful
It could be so beautiful
Can't you won't you feel it could be so beautiful
It is still beautiful

2 x Refrain

Still beautiful
Still beautiful
