When the night falls down, I want you  
DJ, please, take me away  
And when the lights go down, I need you  
DJ, please, take me away

When the night falls down, I want you  
DJ, please, take me away  
And when the lights go down, I need you  
DJ, please, take me away

I'll take you away  
Take me away  
I'll take you away  
Take me away

When the night falls down, I want you  
DJ, please, take me away  
And when the lights go down, I need you  
DJ, please, take me away

When the night falls down, I want you  
DJ, please, take me away  
And when the lights go down, I need you  
DJ, please, take me away

I'll take you away  
Take me away  
I'll take you away  
Take me away  
Take me away
