Deepside

I don't think I can do this
I mean, that's my boy

I cannot believe this
We just laid it down
Are you gonna tell him
When he comes back in town
Are you gonna let him know
That I'm givin you the business
I tried my best to let it go
But I cannot resist it
It's too temptin

I'm slippin
Touchin
And feelin
Me and him be kickin it
While all the while I'm hittin it
Wooh...

I know that girl it's gon be hard for me to run with him
Cuz we be hoopin n shit, that's my dog, my best friend
Said I would never let a chick come between me and
my homie
Had a little too much to drink on the night you put it on
me
And now I don't know if I regret the fact that we be
Up in the hotel suite
Baby this is crazy
Hush hush you don't tell nobody
I won't tell nobody
Baby we can keep it on the hush hush
He is just too close to me
This is not supposed to be
But I can't keep you away from me

Sometimes I feel guilty
Girl sometimes I don't
I try my best to say no
But girl you turn me on
And I'm comin over to your home
And I know that I'm not strong

Blowin' up your phone, girl
Checkin to see if he's home

I'm slippin
Touchin
And feelin
Me and him be kickin it
While all the while I'm hittin it
Wooh...

I know that girl it's gon be hard for me to run with him
Cuz we be hoopin n shit, that's my dog, my best friend
Said I would never let a chick come between me and
my homie
Had a little too much to drink on the night you put it on
me
And now I don't know if I regret the fact that we be
Up in the hotel suite
Baby this is crazy
Hush hush you don't tell nobody
I won't tell nobody
Baby we can keep it on the hush hush
He is just too close to me
This is not supposed to be
But I can't keep you away from me

Sometimes I wish that this had never ever happened,
baby
But on the other hand I'm so glad that it's happening
I just don't know what to do
Girl, I'm so caught up with you
Shoulda never ever started, gotta get on up out your
closet

Hush hush you don't tell nobody
I won't tell nobody
Baby we can keep it on the hush hush
He is just too close to me
This is not supposed to be
But I can't keep you away from me
[x2]

Oh, I won't say nothin'
Keep it on the hush hush
Hush hush, oh whoa
