[Verse 1]

May 22nd, 2005 was the day.
Promise to you baby girl, my feelings stayin this way.
Never wanna hurt ya, never will i leave you alone.
Everytime im by your side, is when im really at home.
Always and forever, thats the pinky promise we made.
You're the reason why im smilin at the start of the day.
And i hope you kno i mean it everytime that i say.
I love you always and forever, it will always be the same.
The moment you're in pain, i wanna be there for you.
Cryin everytime you cry and sharin laughter with you.
When I look into your eyes i kno our love is really true.
Aint nothing i wont do if i can see my baby smile
Remember you can call me anytime you're feelin down.
No girl can take your place and love me like the way you do.
So im a hold you tight, cause i need you by my side.
It's me and you forever, babe i need you in my life.

[Chorus]

We were created to find eachother
Our favorite and down for us to love forever.
Our hands lockin tight, as i look into the eyes.
Of that one special person who would complete my life.
You were the one i chose, out of all the rest.
The one who i would cherish, and im puttin on my best.
Just to stay in your arms, as you hold me tight.
Cuz baby, bein with you just feels so right.

[Verse 2]

Every single second that i live, im thinkin of you.
How we met was destiny, our love is honestly true.
Tell me what im suppose to do, if i aint got you here
I want to be the one thats by your side through the years.
Wanna be the one whose gon fight away all your tears.
Replacin it with happiness and take away all your fears.
One day we're gonna look at our pictures and reminisce.
Crazy are the things you do to me with just a little kiss.
I wouldn't trade you for the world, you're all that i need.

You're the only girl who ever got me feelin so free.
And i love you, wit all my heart and soul till i die.
I truly need you, baby you're the light in my life.
And i kno it that one day for sure you're gonna be my
wife.
Just hold on tight, because im always gon treat you
right.
My baby and my closest friend, i love you baby girl.
Until the day i die, ill try to give you the world.

[Chorus]

We were created to find eachother
Our favorite and down for us to love forever.
Our hands lockin tight, as i look into the eyes.
Of that one special person who would complete my life.
You were the one i chose, out of all the rest.
The one who i would cherish, and im puttin on my best.
Just to stay in your arms, as you hold me tight.
Cuz baby, bein with you just feels so right.

[Verse 3]

If loving you is wrong, than i dont want to be right.
Can't imagine what this life would be, without you by
my side.
The day we met, i cant explain the way that i felt.
Feeling all these emotions that i cant even help.
If i didnt meet you, there wont be no smile on my face.
You doin everything to me to make my heart beat or
race.
Every little thing we do is just so special to me.
We were meant to be thats something i truly agree
And i know its fate and destiny, i see it in your eyes.
Everytime you smile, i cant explain the feeling inside.
Always gonna treat you good, exactly like the first day.
Just promise to me baby that you'll never go away.

[Talking]

I love you baby. Always and foreva you kno what im
sayin? Yea, its always gonna be me and you right?
Yea, cause i aint neva lettin go, you kno wut im sayin? I
just wanted to let you know that.
