You already know what were about son don't act surprised, when it's patron for breakfast chasin' last nights high, we some pill poppin', chain smoking, high motherfuckers. You don't gotta love it, just don't judge us. What we eat don't make you shit, so why the fuck you so concerned with the way that we live.

Living my life, doin' my thing, fuck yourself if you don't agree. I drink, I smoke, I fuckin' party real BAD reppin' DTD. Don't tell me who you think I should be, suck a dick a dick if you care what I do and your not me.

We get it in, think nothing of it, if you ain't with it keep your nose out of it. Don't speak on ours, we don't even think about yours, you gum flapping motherfuckers need a dick in your jaws what we eat don't make you shit, so why the fuck you so concerned with the way that we live. 4204 in this bitch, mind you biz or suck a dick DTD.
