"Rocks Off"

Well we were gettin' ready just the other night
When a knock on the dressing room door
Gave way to a leather jacket little girl
Who we'd never ever seen before
In her red satin dress
And her high heeled shoes
She took us all by surprise
And when she asked us what we wanted to do
She said it with her eyes
Just getcha rocks off
Whoah

Well when we finally took the stage
There she was but she wasn't on her own
'cos she'd brought some friends maybe 5 or 6
Yeah, she must have been on the phone
And when they started dancing and jumping around
Well we couldn't believe our eyes
'cos they'd got the whole damn audience rockin'
And they'd got us paralyzed
Just getcha rocks off

Thank you
Goodnight
Whoah
