Hello and welcome my friend
It's good to see you again
Do you know anything new
Tell me is this really you
Hey, what's the story in LA
I haven't been there today
It's time we went for a ride
Come on and step right inside

Too many people have waited
Too many problems created
Too many jitterbugs not enough jive
I'm tired of sitting here waiting
We should be out there creating
It's times like this that I'm glad I'm alive

Darkness our sole destination
Daylight our only intention
White lightning brightens the sky
Can't tell we're flying so high
Rest now and don't be afraid
Can't you see we've got it made
Just cause I'm not going far
That doesn't mean that we can't reach the stars

Too many people have waited
Too many problems created

Too many jitterbugs not enough jive
I'm tired of sitting here waiting
We should be out there creating
It's times like this that I'm glad I'm alive

Too many people have waited
Too many problems created
Too many jitterbugs not enough jive
I'm tired of sitting here waiting
We should be out there creating
It's times like this that I'm glad I'm alive

Sad story that look in your eyes
Break out before it's too late

Now come and lay down by my side
Let all the thoughts slip away

Too many people have waited
Too many problems created
Too many jitterbugs not enough jive
I'm tired of sitting here waiting
We should be out there creating
It's times like this that I'm glad I'm alive
I'm alive
Alive
