Represent Hawaii out to NYC  
I go by Shen MC in the place to be  
Cuz we rip up da mic and rock the party

I was born in 1980 spit out the poetry  
Slave ni breavely sakebu this remedy  
To enemy to break your thoughts in melody  
Correctly kohuku kokoro moro directly  
Angry or anguri momentary de kanguri  
Tojikomoru tsumori jibun no mata kara ni  
ORE ga kita kara ni wa sou wa sase nai  
Hayaku, mada ka toka sou nara nai

Just chill out, chillax, break the act  
Be you inside, be it exact  
We came for one thing, to rock your mind  
Combinin' the beat with a message divine  
Recline the while, better than that  
Rize up to the front, strike, strike with impact  
React to our words, we fly with them birds  
Takin' it to that level that you ain't never heart

Say word Ei Hey world dekai TEEMA to wa sekai heiwa  
Light your fire tomose FAITAA next generation no  
deban  
Da

Ignition, reaction, burin' in up for satisfaction  
Your addiction's a dereliction, a non-fiction  
Contradiction  
Resolution, woman revolution  
Fight against discrimination  
Reciprocate, relate, do it today  
Accelerate to straight and abdicate the hate

Clap, raise and clap your hands

Stom, Stomp  
Four, Core, Three, Free, Two, True, One, here we  
Go...

Look inside, we're by your side  
Your eyes have that vision  
Outside is just a lie  
Your sight lies here within

Ei YO me wo samase nemureru shishi yo ima tate  
Nothin' to lose and everything to gain  
This prejudicial strain is driving me insane

(Geronimo)  
Breath one de tobasu tsuba two verse de kechirasu  
SUKAtto suru kazukazu no KASU damarasu  
Wakara su wakaraze ya wo kanarazu  
Kikasu sankai hodo shio fukasu  
PAN PAN ni hareagaraseru BAI AGURA  
I just don't give a I flow it fast, Niagara  
Bakusai Gero son of a gambler the hustler  
Juggler performer, the one and only struggler

All we're sayin' is look inside, don't run and hide  
From yourself  
Taking the meaning from the lesson will stress and  
help  
You excel  
To lift up out of that hot spot that's dot, rot,  
Clottin' your life  
A can't stop, locked, caught, robot who shot and fought  
In a plot, aight  
Better mentor, enter, center, yourself pure  
Cuz that's the only painless way you can stay sane and  
Stay sure  
You in countrol of that head whole, filled high with  
Shit like a bowl  
You better remember the message sender, one more  
time  
Come on

Look inside, we're by your side  
Your eyes have bad vision  
Outside is just a lie  
Your sight lies here within

Keep it groovin', keep it, groovin' on...  
Keep it groovin', keep it, keep it groovin' on...
