paradise by Def Value  
I can't believe the news today  
Now I've heard you ran away  
You were the sunlight in my paradise  
It's you that kept my dream alive

And now it sure you're finally gone  
I remember things that we did wrong  
You were the sunlight in my paradise  
It's you that kept my dream alive

Oh yeah my hope's still set on you  
Life isn't great when you feel blue  
You were the sunlight in my paradise  
It's you that kept my dream alive

Thinking how it used to be  
I hope you'll still come back to me  
You're the one, the only one for me  
Oh baby baby can't you see

Is there love after life?  
Love after life?  
Love, I will not hide...  
Love... after life...  
Now I know you're finally gone  
Now I know we will never... kiss again...  
Now I know you're finally gone  
Now I know we will never... hold hands again  
I can't believe, I can't believe,  
I can't believe I... ohoh I...

I can't believe the news today  
Now I've heard you ran away  
You were the one, the only one for me  
The paradise, the paradise in me  
Paradise in me
