(Mike Wilson)

Don't let the, money fool you  
The money fool you, too yeah  
Oh, I get lonely, lonely

[Big Moe & (Mike Wilson)]

I guess you heard of my situation (I guess you heard)  
I've done my share, of putting it down (share of putting  
it down)  
But everybody needs, sexual relations (everybody  
needs it)  
But mine just happened to be, all over H-Town (wanna  
be down with M-O-E)  
It's a playa made occupation (playa made occupation)  
3rd Coast, high society (yeah-yeah-yeah)  
I just once, I wanna get down  
Without being all about my do' (all about my do')  
I just once, I wanna get down  
With somebody who know how Big Moe roll

[Hook]

Don't let the money fool ya, Big Moe I get lonely too  
Even though I got more money  
You can imagine in your wildest dreams  
But money don't make no happy man

[Noke D & (Mike Wilson)]

I'm the kind of player (I'm the kind of player)  
That can change your world around (let me turn your  
world around)  
I can take you from suede to gators (oooooh-ooooh-  
oooh)  
Just as long as you stay down, you stay down  
Oooooooooooooooooo-oooh (oooooh)  
I wonder, wonder, wonder, wonder oooh (I wonder)  
Know that I get lonely sometimes, tired of being all by  
myself  
I just need you to be with me girl, and nobody else  
yeah

[Hook]

[Big Moe & (Mike Wilson)]

I know you recognize me, I'm the Moe-Yo (that's my  
nigga)

I'm on your radio and TV (all you gotta do is turn the TV  
on)

But for all that baby, I'm gon drop me a X-O

So won't you take a little time out your day and come  
and sex me

Baby you and me can make a constant connection

Maybe you can come shine with me (you can bling  
bling)

Cause Big Motorola needs a bit of affection (affection)

I'll dig in the flesh come rolled up, that's fine with me  
oh baby

[Hook]

(Mike Wilson)

It goes like this, at first you can't

Let the money fool you, and you need to know

I get lonely sometimes, I wanna knock you down baby
