[Chorus]

I was at the club one night (one night)
That's when I saw some hype (saw some hype)
She looked kinda throwed to me (she looked kinda
throwed yeah)
She was all up in my grill (my grill)
So I showed her my big daddy steel (big daddy steel)
I'm just a dog, don't blame me (a dog don't blame me
yeah)

[Big Moe]

Rolling on a Sunday, with the top down
Hit that M-L-K, popped up show some round
Headed to a bitch, that I knew from way back
She use to be skinny, but now that ass ain't flat
She said Moe-Yo, I didn't know that you rap
I remember you singing, way back at the Jack Yates
In a Delta 88, scraping plates
All up and down 2-88 (8-8)
I Said, girl you remember that shit
Me, Herms Tooley, keep it with the hitting licks
Use to have boys sick, we use to skip school
Acting a damn fool, at Greystone and TSU
It use to be you, Keisha, Bridget and Tanesha
And your whole damn crew
Tell me what it do, are we clubbing tonight
Max's sound throwed, Yeah we thugging tonight, iight

[Chorus]

[Big Moe]

I jumped in the gator, leaving the South Park
On the way to the crib, it was almost dark
You know a big dude, gotta hop up in the shower
You already know it took about an hour
I jumped up fresh, and jumped out clean
Hit the fo' for green, hit the stash for the lean
Grabbed my bling bling, screwed up around my neck
Grabbed a teck, for them boys who failin' to respect
And the ones with the plex, you will get your days
darkened
So move around, and watch me hit the lot without even

parkin

[Chorus]

Oooh-oooh-ooooh-oh-ooooooh

[Big Moe]

Pulled up on the lot, just finished off a sweet
Dropped a hot twenty, valeted the SUV
Long line at the club, it's going down and Max packed
But the big boss playa, gon by-pass all that
That's when I noticed, you and your crew
Screaming Big Moe, can we come in with you
Hell yeah you want a G, V.I.P.
They got the whole section, roped off just for me
That's when your friend, started eyeballing me
like she was fascinated, with the Barre Baby
One thing led to the next, it's a bit of some sex
I know I met you first, didn't mean to disrespect
But me and baby girl, had a chemistry
And I know you heard, of my history
Big Moe dog, ain't lazy with the law
I'm a lover dude, I can serve both of ya'll

[Chorus]

Oooh-oooh-ooooh-oh-hey-heeeeey-yeah

(*Vocalizing*)
