Science Our Subject Penetrating Spheres of The Ultra
Complex Genius Minds Handed Over To Those Leading
Hands.

Demonic Greed Defeating All Morality Severe Conflicts
Peaceful Solutions Long Buried Animalistic Instincts
Take Over Humanity Shows it's Face.

Glittering Lights Of Decimation Woman And Children
Awaiting The Sickness From Above.

From The Safety I return To Find Pure Infamy Heading
Tortured Screams Out Of The Ruins Once My Home.

This Apparition So Real A Charred Indefinable Creature
Creeping To Me Begging For Help Before Collapsing
Into it's Demise Dying Before my Eyes Fascination of
Destruction Killing Capacity Tested Slaughtered For
Manifest Destiny.

People Disintegrated Their Shades Remain On The
Concrete.

Infant Body Filled With Splinters Of Glass.

Punishment For Survival The Living Eternally

Traumatized Remembering Their Loved Ones In
Suffering Endlessly.
