

Defecation "Popular Belief"

Visit "[Popular Belief](#)" on MotoLyrics.com

What is wrong or what is right?
What will guide us to the light?
Did all the years of Sunday school
Pay off or were you just as ass?
Will it be heaven, will it be hell,
Or is it the earth in which you dwell?
Religion's just here to keep you sane
When people start to wonder how man came
Religion is created

By man itself
Put the books
Back the shelf
Religion helps the family and community
Too many people thriving off scrutiny
Following teachings, reading books
Popular belief was all it took
Following teachings
Reading books
Popular belief
Was all it took
