I taught Gabrielle about ma belle scalpelle

I used ma belle scalpelle on my sweet Gabrielle, buried
in her flesh,

Funny how it cuts through sinews, veins and stuff, even
smaller bones

I tied her with wet leatherbands around her head the
arms and legs

While they dried they also shrank, so she cried but
later also died

Then when the skull was cracked I could save the brain
intact, for a rainy day

Her eyes were beautiful which I up her cunt and tight
rectum

I picked up ma belle, sliced parallels

Her skin could then be seen as beautiful patterns

Scotches through the skin, can you feel the groove ?

With ma belle scalpelle I simply cut and sliced her well
around the fontanell

Then I looked and laught, a eye-sinew out her cunt like
a used tampon

My friend work at the morgue and he's so bored

To see all these self-deceased bodies

This was my small gift so he will cheer up

Next time I see him he'll talk for hours...
