Under the blade, under the blade
Starting to fade - under the blade
Becoming my maid - under the blade

I can never conquer your name
and you will never be the same
This time you're loosing the game

See the blade from under
Waiting for the thunder
It takes you away from here

Dare to duell the guillotine
the sharpest you have seen
It helps you end your fear
I act in hopelessness
due to the fact you are sorrowless

Under the blade, under the blade
Starting to fade - under the blade
Becoming my maid - under the blade
Under the blade - under the blade
Starting to fade - under the blade
You're gonna get laid - under the blade

I can never conquer your name
and you will never be the same
This time you're loosing the game
