I remember riding in the back seat  
Of my daddy's Chevrolet car  
Mama's laughed, Daddy told stories  
We never seemed to get far

I will always cherish  
All those days gone by  
I thank God for the good times  
Every moment of my life

Everybody wants to be remembered  
Of something good, or kindness they shown  
I want to help this world to find the answer  
No one ever has to walk alone  
When my time is over  
I'll be satisfied  
I thank God for the good times  
Every moment of my life  
Every day of my life

I don't wanna go back  
And try to relive my life  
I just want to say thank you  
For all those good times of my life

I will always cherish  
All those days gone by  
I thank God for the good times  
Every moment, every moment of my life  
Every day of my life  
Every day of my life  
Every day of my life
