Days are dark, hearts are cold, pressing on  
The race is marking you tired  
Every bit of news is like water on the fire  
Fight the fight, hand to hand, heart to heart  
Maybe you've had enough  
Every little war brings casualties to love  
Push it up another gear and finish the race  
Push it into over drive to hyper-faith  
Open up, tune it in, talk it out  
Find it down on your knees  
Open up the word then read it and believe  
Trust and obey  
Trust and obey  
Trust and obey
