

Degarmo And Key "I Use The J Word"

Visit "[I Use The J Word](#)" on MotoLyrics.com

They took us off the airwaves
Banned from MTV
For taking our religion
A bit too seriously
They told us we were fascist
Cause we made it clear and plain
That the only trip to heaven
Is through a five letter name

When we use the J word
It drives the world insane
When we use the J word
There's power in that name
When we use the J word

Let me tell you plain and simple
Let me leave you no doubt
I could never help you
By leaving Jesus out
You say this word's offensive
To use it is a shame
But there's no saving power
In any other name

When we use the J word
It drives the world insane
When we use the J word
There's power in that name
When we use the J word

Some say it as a blessing
Some say it as a curse
You can't deny the power
Of this supernatural word

When we use the J word
It drives the world insane
When we use the J word
There's power in that name
When we use the J word
