One more time and I feel so cold  
I count the hours that I been alone  
I had nothing left in me I had no choice  
Some many lies that got so old  
I open my window and let them go  
It was so fast  
I didn't see it come  
Now I'm on my own

(Chorus) [1x only]  
And now that your gone  
I'm living without your love  
Some many things to come  
I'm gonna stay without you

I try to see what's going in my life  
From my tears I got to find  
I left my past behind my life that teared my heart  
(Chorus) [3x]  
And now that your gone  
I'm living without your love  
Some many things to come  
I'm gonna forget about you

And now that your gone  
I'm living without your love  
Some many things to come  
I'm gonna forget about you

And now that your gone  
I'm living without your love  
Some many things to come  
I'm gonna forget about you

I'm gonna forget about you(2x)
