

## Dejligt "Blue Station"

I'm smoking the happiness I know  
I'd like to drink my favorite choice  
Just to understand things I never loved and respected  
Up to this point

I'm smoking the happiness I know  
I'd like to drink my favorite choice  
Just to understand things I never loved and respected  
Up to this point

It seems like someone wants to feel again  
The giddy end of last night  
I'm smoking the happiness I know  
I know that

I'm smoking the happiness I know  
I drink my favorite choice...

And my head is falling and crashing down on the table  
of your blue station

And my head , and my head , it s my head , it s my  
head that's it
