(Make the money talk)

(Make the money talk)

(Talk)

(Make the money talk)

(Make the money)

(I'm gettin money) (money) (money)

(Money talk, bullshit walk)

(I'm gettin money) (money) (money)

(Make the money talk)

(Make the money talk)

(Talk)

(Make the money talk)

(Make the money)

(I'm gettin money) (money) (money)

(Make the money talk)

(Make the money talk)

(Talk)

(Make the money talk)

(La-la-la-la)

[Verse 1:]

See, I'm about money, a whole lotta cheese

Niggas talkin greasy - it ain't about me

Cause bullets cost money, but I give 'em out for free

If I hear my name out the mouth of a MC

Nigga please, niggas must be smokin good trees

Always poppin shit, you know how the hood be

They envy when you walk, they rather see you down

When you go broke, them niggas ain't around

Clowns, see 'em in the street, air 'em out

I'm deaf, I ain't tryina hear nobody now

Gotta tell my money shut up, it talks too much

They say my records won't sell, I'm New York too much

I keep a hammer on the hip, Henny in the cup

Money over bitches, now that's what's up

But don't get me wrong, you know I keep a hoe

But ain't nothin that a nigga love more than the dough  
I'm 'bout money

[Variation of intro sample sequence]

[Verse 2:]

See, it don't mean a thing if it ain't about green  
Like when you mention the Bridge you think about  
Queens  
I go all out for the cake, you know I love the CREAM  
You hear the word Infamous, you think of my team  
Ron Gotti, Hav and P, G.O.D  
Gambino, Ty Nitty and the N-o-y-d  
Money-hungry go-getters, fly hood niggas  
From the ice in the rings to the 40-inch gleam  
Too much dough for money clips, partners in this rap  
shit  
All we do is stack chips and load the Mac clips  
You know the money talks, so listen ma and disappear  
I'm goin Hollywood, I'm tryina be a millionaire  
Who cares if we break up, we ain't gotta make up  
All I do is cake up from the time I wake up  
No time to slip up, just make sure my money long  
You know you hoes disappear when the money gone

[Variation of intro sample sequence]
