I'm sittin' on my suitcase just outside of town  
Watching my tears make little funnies all around  
Waitin' for that big ole bus to come my way  
For I'm going to anywhere USA

No I don't care where that old great Dog is going  
Just as long as it takes me so far away  
Mister driver what's the fare how much do I pay  
To go to anywhere USA

I had a love they told me she'd always stay home  
I come in every bar in town she's mighty well known  
So big wheels keep on rolling take me far away  
Yeah to anywhere USA

No I don't care where that old great Dog is going...
