When all your loves have ended when all your friends
have flown
Who'll be around to want you when all your loves have
gone
Only a fool would do it after the way you've done
But how many fools would have you I know one

This fool keeps wondering why he fell in love at all
But you might need this fool around in case you fall
After the party's over and you've had your fill of fun
If you need a fool to forgive you I know one

You never know you might be lonely when all your loves
have missed
It wouldn't hurt to keep an extra fool on your list
After your heart's been broken and it needs a place to
run
If you'll take a fool who loves you I know one yes I know
one yes I know one
