MAN NEEDS WOMAN

(Kelso Herston)

Â« Â© '66 Johnny Bienstock Music, BMI Â»

Now Napoleon made a big scene
And in battle he acted mean
But when the smoke cleared you'd find him sitting
By his sweet little Josephine

A man needs a woman to hold his hand
A man needs a woman to understand
A man needs a woman by his side
A man needs a woman all the time

Now that outlaw Robin Hood
Would spend that money if he could
But Maria that outlaws sweetheart
Made old Robin promise he'd be good

A man needs a woman to hold his hand...

Now there's a history full of mistakes
But how many did women make
I'll bet a man said good fire
When they burned poor old Joan at the stakes

A man needs a woman to hold his hand...

A man needs a woman to hold his hand
A man needs a woman to understand
