"No Place To Go But Home"

Visit "[No Place To Go But Home](#)" on MotoLyrics.com

I've had a beautiful evening
For awhile I've forgot she was gone
Now she's back on my mind how I hate closing time
For there's no place to go but home

No place to go but home and nobody home when I get
there
They've turned out the lights friends have said their
goodnights
Now there's no place to go but home
[guitar]
I drive through this ghost of the city
And I've never felt so all alone
It's the world's time to sleep and it's my time to weep
And there's no place to go but home

Nowhere to go but home...
Now there's no place to go but home
