"Untamed"

I never let love come too near me
I sleep all alone in the dark
The truth is I'm runnin' from the fire
That's scorching the dry wood of my heart

Chorus:

Can you hear the thunder in the distance
Can you hear the crackle of the flame
Can you hear the beating of my dark wild heart
My heart might be in chains
But my soul is still untamed

Free as the flight of an eagle
Blazing thru the blue of the sky
My spirit soars so high when I see you
With that love light burning in your eye

Chorus

I feel like a cold black stallion
Running proud and lonely in the dusk
I'm racing like smoke through the canyon
With the only one I trust
