On a mountain stands a mansion so fine  
And it looks down on this cabin of mine  
I had a love and I loved her true  
But along came a rich man and he loved her to  
Now on the mountain in a mansion stands my love

Well he promised he'd buy her diamond rings  
Yes he promised fancy dresses and things  
Promised everything indeed  
But it can't buy a love that her poor heart needs  
On a mountain in a mansion stand my love  
[ dobro ]  
Now I know that she's not happy there  
And I know that she's got thing to bare

My only dream is that someday  
She'll come right back here with me and stay  
In the cabin in the valley with me

On a mountain stands a mansion so fine...  
Now on the mountain in a mansion stands my love  
Now on the mountain in a mansion stands my love
