"The Answer To Everything"

Visit "[The Answer To Everything](#)" on MotoLyrics.com

Don't ask me a mountain of questions
When there is only one answer to it all
Do you love me, really love me as I love you
It's the answer to everything if you do
Don't give me a million excuses
When I am waiting with my arms open wide
Do you love me, really love me as I love you
It's the answer to everything if you do
If there is someone else, some other place who holds
your heart
Tell me now, truthfully, before we start
Don't act like you misunderstand me
When there is simply no mystery to it all
Do you love me, really love me as I love you
It's the answer to everything if you do
