Cut:

(Del talking)

Hook:

This is real hip hop not no phony phranchise
Winnin' by a landslide and you know you can't hide

This is D-E-L not no phony phranchise
Winnin' by a landslide and you know you can't hide

This is Hieroglyphics not no phony phranchise
Winnin' by a landslide and you know you can't hide

Cut:

Rag Del, impetuous, tempestuous,

My power's activated, have to make it, funky

Del deep, scuba diver wet suit

Who survived to get loose

Brewin' in the test tubes

To the rescue, extradition process

To get you all stressed

Step onto my office

That's what you call fresh

It's more like some soft breasts

If i stopped cuss, i probably would cough less

Test it, just to see if ya'll rested

I'm blessin' the beat just like if i was the best man

Yo, you miss it in ya' public school district

Get a book and do the physics

Yo' i got a cool image

Like Hendrix, my kindred,

Y'all fuck up to my index

Bench press rappers doing sets with my Syntax

Ain't nothin' new motherfucker man i been black

Impact, remember Malcom X wore a pimp hat

You paper chasin' when you make it then you spit that

That your whole life shoulda never even been rap

Wannabe gangster fool around and get your friend
capped

Talkin' hella shit my brother trying to buy a ten sack

Man, just call me amphibious

Submerging so deep yanking curtains on these idiots

Walking 'round oblivious more than annoying

Everywhere I turn a black life is destroyed and

Times is getting tough gotta sign for unemployment

Walkin' round the town all 'noid and bent
Out of posture from sixteen blunts, a pint of vodka
Intoxicated some of y'all call it faded
With my headphones slammin' playin Iron Maiden
Sleepin' in the lobby of the Days Inn
Hook

Cut:

Never outdated
When my power's activated, have to make it, funky
I'm barn storming, alluring, curing
Your ailments with lyrical talismans
Here it is, for the scrutiny of every record reviewer
Your tool to reduce your little rhymes are non-existent
Meticulous methods I use to modify
The style you all should try
Posh poetics, cost effective
Neck and neck with sun beams
Transcends the fabric of time
Yah, it's one thing
Named Hiero, habitual funk, fiends and freakerz
Techniques from the major leaguers leaves you
meager
Style malfunctional i'm punchin' in early
Right on schedule gold medalist rebellious (who?)
Del is, got you cornered like a cougar
Comin' up with new words like you must be a lummoX
Wanna infiltrate my crew when you know you'll go nuts
Lactose intolerant your bowels'll blow up
Catostrophic so deep can't locate with metal detectors
Listen more then once you'll need several inspections
I'm sicker than a beef recall
Reiterate the fact with flows that free fall
Reintroduction the classic material
That last with imperial
Props and Pop Will Eat Itself
Hotter than coals tread and your feet'll melt
Like plastic i castrate contenders
With a crew that got more power than the Westcoast
Avengers
Sit and let your ears swim in the splendor

Hook:

It's just that real hip hop not no phony phranchise
Winnin' by a landslide and you know you can't hide
This is D-E-L not no phony phranchise
Winnin' by a landslide and you know you can't hide
This is Hieroglyphics not no phony phranchise
Winnin' by a landslide and you know you can't hide

Verse 3:

Mouth watering musical madness
More bomb than Bombay in glad bags, get

mesmerized
Spellbound Del found profound
Hip hop essentials mandatory for the mental
I used to be dazed and confused
Now I'm amazed and amused
At life and it's clever ruse
I have compassion while other brothers askin' for
trouble
Brain damage got 'em befuddle
Yo, while I'm on stage pumpin' fear
Your over there in the corner drinking non-alcoholic
beer
Dominating, commentating moving on to great things
Embracing the lunacy, lacing the community
With one, two, and three for all clueless emcees
They need guidance, tutorials from the Overlord of skill
Magnifying music with my magnificent mind
That blinds with such shine it's embarrassing
Hop in the caravan with Hiero and hit the road to take
care of fans
You know what, I'm claimin' dozens
It's Sudden Impact Crib Death
It's big threat major counter-act like tazers
Trailblazers, we clown the name sayers
I crave flavorings with custom tailorings
I can communicate with aliens, it's a daily routine
It's never failing you fiends to get cream
By the continuity the rhymes move in unity perfectly
with the tunes
I hope it hits you soon
Hook
When my power's activated, have to make it funny
