Standing in the shadow of our lies  
To hide our imperfection  
Doing anything we can to hide  
Eyes wide open but still blind  
To see what really matters  
And insecurity won't go  
See me in shadow

Standing by the ruins of your soul  
That cries for some more meaning  
Wondering when you have  
Become so cold

[Chorus:]  
So cold  
And all the pictures of your past are gone  
So cold, so cold  
Forget yourself  
And who you are  
Another life is not that far

Standing by the paintings of your dreams  
But you have awoken  
And all the purples and the greens  
Have turned to black  
And the ruins of your soul  
Have died - no more meaning  
I wonder when you have  
Become so cold

[Chorus]

Not that far
