Silence in the living room  
Hours feel like days  
Silence when I speak to you  
Your thoughts seem miles away  
Crying for real  
Yes your worth the prize  
Because when my mind gets clouded  
I forget about our fights

[Chorus:]

Stay forever, it's never again  
Our words have been spoken,  
It will come to an end  
Stay forever, it's never again  
Our words have been spoken,  
It will come to an end

I'll affiche your energy  
Running through my veins  
Chemical the love I feel  
For faces without name  
Crying for real  
Yes your worth the prize  
Because when my mind gets clouded  
I forget about our fights

[Chorus]

This empty house is not a home  
Find the will to stand alone  
Without your armour  
Flesh and blood have turn to stone  
Find the will to stand alone  
To late to turn away

[Chorus]
