Baby, there's a place I know  
And oh darlin', you just gotta go  
It's over on the other side  
Beyond the mountain that's oh so high

So come on go with me  
And we can love, can love

Baby, I wanna go with you  
To climb your mountain that's so so high  
Now, I been waitin' a long long time  
To find out what's on the other side

So let's go and waste no time  
We can love, we can love  
There'll be lots of things that we can do, oh  
Baby, I've got plans for you  
Makin' you laugh and lovin' you too

Baby, oh baby, I've been watchin' you  
I know, baby, I've been watchin' you too  
I think we oughta get together, don't you?  
Oh, I do, I do, I do, you know I really do

Let's go together hand in hand  
And we can love, we gon' love
