I see all that I ever wanted  
When you look at me like you do  
I'd love to believe you've got all I need  
But there's something missing in you  
Chorus:  
If you had the heart to go with those eyes  
I'd fall for you and never think twice  
I'd trust those lips that tell such sweet lies  
If you had the heart to go with those eyes

It's easy to see that you thrill me  
But I know your story so well  
You think hearts are for breaking  
And love's made for taking  
You give nothing at all of yourself  
Chorus
