You are nearer than heaven  
I get the feeling I get nearer by the day  
I've seen  
The people go forever descending  
It's when we're all inside  
That summer's on the  
Way

Bullet took it easy dollar lit the room  
Monsters making the evening news  
Packing up  
A round trip, I get in the way

Now I know that  
You are nearer than heaven  
I get the  
Feeling I get nearer by the day  
I've seen the people go forever descending  
It's when  
We're all inside  
That summer's on the way

We could talk forever,  
Nothing would get  
Done  
Stake your claim on the morning sun  
I get in the way

Now I see that  
You are  
Clearer than heaven  
I get the feeling I get nearer by the day  
I've seen the people go  
Forever descending  
It's when we're all inside  
That summer's on the way  
Yeah  
Yeah.....
