The silence that's fallen between us  
Is the loneliest sound that I've ever heard  
How can we find forgiveness  
If we can't find the words

Chorus:

When we don't talk  
When we don't speak  
When we don't share all the feelings  
That are buried so deep  
How can we know  
What's hidden behind these walls  
When the door's locked  
When we lose touch

When you and I lose sight of us  
The honesty's lost  
And tears say it all  
When we don't talk  
When so much goes unspoken  
And sorry is left unsaid  
The silence remains unbroken  
And our hearts are breaking instead  
Chorus
