### "Summer In Space"

Visit "[Summer In Space](#)" on MotoLyrics.com

20,000 miles away  
counting all the stars today  
where will we be?  
imagine what we see  
20,000 miles away  
20,000 miles away

and then so high  
reach the sky  
it's a summer in space  
yeah the summer in space

the summer in space

and holding hands  
escape to nomansland  
enjoy this race  
the summer in space

and then so high, reach the sky  
it's a summer in space  
yeah the summer in space

the summer in space  
the summer in space
