I am necromancer  
Feel the black power  
Bad moon is on the rise  
Hour of witchcraft

Hell's necromancer  
Eternal darkness and power  
Hell's necromancer  
Eternal darkness and power

See the power start to surge  
Death and destruction  
I am immortal  
Being myself the man

Hell's necromancer  
Eternal darkness and power  
Hell's necromancer  
Eternal darkness and power

Against a weird might  
The bells begin to tone  
The mass begins the spirit appears  
Satan has received my soul

Hell's necromancer  
Eternal darkness and power  
Hell's necromancer  
Eternal darkness and power
